Personal Statement

I am a highly motivated and results-oriented individual with a strong foundation in web and app development. I am seeking an internship with an innovative company where I can apply my programming skills and passion for continuous learning. My goal is to contribute effectively to a dynamic team, dedicated to professional growth and eager to tackle new challenges. I am driven by a proactive approach, commitment to excellence, and a passion for technology, all of which fuel my desire to help achieve team success and company goals.

 - Problem-Solving
 - Time Management
-

Professional Development

I am actively seeking professional guidance and mentorship to pursue a successful career in software development. My aim is to enhance my technical skills, stay updated with industry trends, and gain insights from experienced professionals to achieve excellence in the field.

Project**Medicine Reminder App:**

Developed a Med Reminder App that streamlines medication management with features like personalised notifications, online and offline functionality, and user-friendly design. Implemented using the waterfall methodology, ensuring a structured and reliable solution to enhance medication adherence and support better health outcomes.
